

Welcome to the American Section Website

Within the unique context of the Lycée International, where 12 national sections are represented, the American Section provides an **American educational and cultural experience of exceptional quality.**

The American Section prepares students to become **lifelong learners and global citizens** by:

- Fostering **intellectual curiosity** and **self-confidence** that help students realize their full potential;
- Developing students' **leadership abilities** and **sense of responsibility towards others.**

The American Section pursues this mission through a rigorous and rewarding American curriculum which culminates in the French Baccalaureate with International Option, as well as through a broad and enriching co-curricular program including such activities as drama, community service, sports and student publications.
